

Apple Cinema Display LED 24quot Zwart

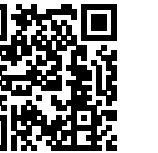

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentieX.nl/x-1824273-z>

LED Cinema Display
 A1267
 24 Inch
 1920x1200 Pixel
 Introduction: 2008

(Mini DisplayPort, MagSafe, and USB 2.0 connectors)
 An USB-C to mini-DisplayPort adapter is required to connect the display to the latest macs (for example picture 12)
 Adapter not included, I don't have one.

The display has a deficiency in displaying pure white background in the bottom left corner (see picture 4 & 5).

Display is testable on location by connecting to my Imac or to your macbook, if you bring the USB-C to mini-DisplayPort.
