2013 Toyota Auris Lease Pro.  
 Excellent technical condition. This Auris is not just a car, it's a testament to unwavering reliability and your trusty companion on every journey. It will never fail you. Plus it's loaded with some great technology features such as; Intelligent Parking Assist (it will do the parallel parking for you), navigation, heated seats, parking sensors, rearview camera and more.  
 Very fuel efficient, I could get 4.2 liters/100km. But most of the times it's around 5 liters/100km, which is great!
