

# Refurbished gaming pc i5 gtx 1060 16gb ram (470 EUR)

Locatie **Noord-Holland**  
<https://www.advertentiax.nl/x-1829406-z>

Mooie refurbished gaming pc met een nieuwe case en nieuw opslag. Is een tijdje gebruikt om op te gamen maar ik ben overgestapt naar een zwaardere pc zodat ik ook vidoes kan editen, voor de rest werkt de pc goed en is gamen geen probleem. Er zijn 17 verschillende kleuren/modussen om uit te kiezen.

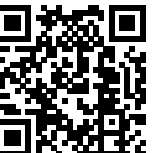

Specs:  
 ? - I5 2400  
 ? - Gtx 1060 3gb  
 ? - 16gb ddr3 1666mhz (2x8)  
 ? - 250gb ssd  
 ? - 750gb hdd  
 ? - semi-modulaire psu

Fps (getest in games alles 1080p):  
 Need for speed heat = 120fps  
 Valorant hoge settings = 160 fps  
 cs-go hoogste settings = 200 fps  
 GTA-V hoge settings = 80 fps

Dit kan uiteraard allemaal hoger door settings lager te zetten of door de pc te overclocken. Ik zou u aanraden de cpu te vervangen als u graag hogere settings/fps wilt hebben. De videokaart gaat nog wel

even mee maar de cpu houdt de pc tegen om zijn potentie te bereiken.

Is dit uw vraag? Stuur ons bericht en we zullen het u zo snel mogelijk beantwoorden. Het gaat om de afmetingen van de pc!!

|                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                              |
