

Monkeyclimber MC x Forge Tackle Flecktarn broolly (395 EUR)

Locatie Utrecht, Achterveld
<https://www.advertentiax.nl/x-1839417-z>

NIEUW en ONGEBRUIKT!!!

Our first run of 110 MC x Forge Tackle Flecktarn brollies broke the internet really at the end of April. They sold out in just twenty minutes on the site, which left a lot of people unhappy. That's why we've decided to do a second and final run of 110 pieces so everything is kept in minimal numbers and you're still fishing with something very exclusive. Moreover, treat this baby well and it might become a collectible.

Some important info:

- The MC x Forge Tackle Flecktarn broolly is made for the undercover and moving angler mainly, an oldschool concept in a modern design (tackle organiser inside, rear vents, etc.) coming with a flecktarn mozzly mesh and groundsheet.
- 55 inch version. Groundsheet is 237 cm x 148 cm to give you an idea. Height adjustable, I use it personally as low as possible. Packdown height of the broolly is 146 cm.
- Fabric is a 20K in water column waterproofness, breathable and rip stop.
