Dell 222-2257 PowerConnect 2724 24 Port Gigabit Web Managed Switch - Brand New

Delivers full wire-speed switching across all ports and web-managed features

Dell-designed switch ships as an unmanaged switch, but can be easily set up as a web-managed switch with the push of a button

The 2724 has 24 gigabit Ethernet ports. In addition, the 2724 has two SFP slots in a combo port arrangement with the 23rd and 24th gigabit Ethernet port

24-port Gigabit Ethernet PowerConnect switch includes features not usually found on unmanaged LAN switches, such as integrated front panel LEDs and cable diagnostics

PowerConnect 2724 supports maximum switching capacity of 48 Gbps

Supports auto MDI/MDIX and auto-negotiation of speed, duplex and flow control

Switch is the following management capabilities when enabled:

Easy Web access to all management features

Up to 64 industry-standard VLANs

Four priority queues for optimizing network traffic using industry standard quality-of-service capabilities

Port mirroring so that traffic flowing through one port can be mirrored to another port for intrusion detection and troubleshooting
