Super nette en complete kite set, zeer goed onderhouden en vrij van reparaties, plakkers of ander herstel. Weinig gebruikt en dat kun je ook zien aan de bridle's!!

Oppompen en uitvoerig bekijken is geen probleem. Het liefste tijdens kantooruren (of kort daarvoor of daarna) in Nijkerk. Daar kunnen de kites binnen opgepompt worden op ons kantoor. Verzenden is ook geen enkel punt.

Ze zijn echt nooit nat opgeborgen, omdat ik zowel thuis als op mijn werk volop ruimte heb ze weg te hangen :)

 10m -> €825,-
 12m -> €875,-

Als set met €150,- korting voor €2150,-

The & Rebel is a kite that has defined a generation of riders; it's the best freeride kite on the market and the perfect tool to help you improve your riding. More than that though the Rebel was made for living, not just for the Duotone. It offers a new, longtime and not when you are on the water. Load up the kite and set it in one of the most extreme ways like no other kite ever. The kite feels sportier, more like a race car, finely tuned and ready for action. The wind range on the Rebel is outstanding, the five strut design keeps the shape stable in the air, at the top end the kite is almost no limit, the jumps just get bigger, and the hangtime lasts longer. With several trim options on the bar, the Rebel is also very versatile, you can set the kite up for the conditions of the day and how you want it to fly. A familiar Sheet and Go feeling through the bar makes it a great kite for beginners and riders wanting to improve the way they ride. From your very first jumps to the biggest airs you could possibly imagine, the Rebel is the perfect partner every step of the way. Get ready for take-off and
