The bike is in excellent condition and has been well maintained. I have replaced the front and rear brake pads (SBS racing) and oil at 22,000 km. I have also replaced the engine oil and filter at 20,000 km. At 17,000 km, I replaced the K&N sport air filter, installed a decatalyzed exhaust, and had the ECU mapped from 140hp to 150hp, resulting in increased torque and a fantastic sound. The bike has a short license plate holder, wing wheel, end bracket mirrors, and all LED lighting. All original parts, including the catalytic converter, are present. I apologize for my imperfect Dutch, but there is also a description in English at the end. If you buy it, please treat it well. Thank you in advance.	 https://www.advertentiax.nl/x-1847833-z gsx-s 1000	 https://www.advertentiax.nl/x-1847833-z gsx-s 1000	 https://www.advertentiax.nl/x-1847833-z gsx-s 1000	 https://www.advertentiax.nl/x-1847833-z gsx-s 1000	 https://www.advertentiax.nl/x-1847833-z gsx-s 1000
