Soon for sale true a CataWiki Auction... Really nice army green Dnepr with a great-looking patina. This bike stood still for a while in a garage of an older gentleman, he bought the Dnepr in 1994 and had decided to sell the bike due to his age. We at made the bike run again; it now runs, brakes, and shifts. The bike comes with the original seat and sidecar cover. The sidecar has a brake. The gearbox has a reverse, and it has a new battery.

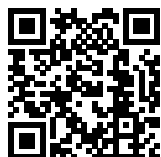

Video of the bike, also running:
