Selling my old phone because of buying an iPhone. The phone is in perfect working condition with a perfect battery. There is a little scratch on the screen edge and back cover glass has cracked as you see on the pictures but it does not affect the phone at all when you cover it with a silicon case (will be included) Power button fell down but i kept it. Silicon case holding the button and it does its work. However you can fix it in a repair shop. I just don't want to deal with it instead i sell the phone at a cheap price. Who will buy this phone can use for long time. It comes with a plastic case and sim card ejecting tool to power it on and off and nothing else. Of course I will reset the phone before sending it. I can safely pack and send it via DHL at extra shipment.
