 deze uitvoering is de dikste/warmste windstopper van mystic.
 nieuw rond de €170

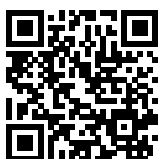

Mystic Voltage Sweat
 Neoprene jacket

If you want to get out on the water nice and warm in winter without being bothered by the cold wind, then the Mystic Voltage Sweat is ideal for you!

Thanks to a hole in the front, especially for the trapeze hook, you can also wear it on the water. How chill is that? The jacket is 4mm thick neoprene and is finished with a wind- and waterproof coating. The adjustable arm closures and elastic bottom mean you lose less heat, so you can still enjoy being on the water even on the coldest winter days! The Mystic Voltage Sweat features a hood that protects your head and especially your ears from the cold.

Features of the Mystic Voltage Sweat:

Wind and waterproof 4mm thick
 Adjustable Hood with water drain
 Kangaroo pocket with water drains
 One zipper pocket
 Velcro wrist straps
 Elastic waist strap
 Spreader bar hole
 M-Flex (70%)
