Boox Tab Ultra e-reader in great condition ! (Original price 718 euros). 4 GB RAM, 128 GB storage space. Full support for installing Android applications.

Bought in April 2023. Selling because I am replacing it with a larger e-reader.

It comes with:

- a beautiful leather protective cover that does not have magnetic elements, so it doesn't impair writing on it with the stylus (price 60 eur)
- the original pogo-pin keyboard cover, which has a few minor scratches on the front (see screenshot) - this one I ended up not using, once I saw how easily it accumulates scratches (and the leather cover was so much nicer to carry around)
- boox stylus pen2 pro with eraser
- one unused paper-feel droodroo protector (original price for one would be 17.5 euros)

The only external sign of device usage is that, on the side on which the stylus is attached, a bit tiny bits of paint went off (see photo). The battery is currently at 94% of the design capacity (according to Accu battery, see).
