

E-commerce Specialist

Locatie

Noord-Holland, Amsterdam

<https://www.advertentia.nl/x-1867604-z>

Are you experienced in E-Commerce and do you love Apple products and accessories? Apply for the position of E-Commerce Specialist in Amsterdam!

Bedrijfsomschrijving

This E-commerce company specializes in consumer products, with a particular passion for premium Apple accessories. Their goal is to ensure customers can fully enjoy their electronic devices, from smartphones to laptops, smartwatches, or other multimedia devices.

They manage various (mostly English-language) premium webshops and are also active on various European marketplaces. Their range consists of carefully selected top brands chosen based on their innovative character, design, and technology. In addition to essential accessories for daily use, they also offer a growing range of "connected" products focused on health, sports, education, and recreation.

The company consists of 20 enthusiastic colleagues working at the location in Nieuwegein.

Additionally, there is an IT team in Amsterdam that is fully dedicated to the development of the new webshop.

As a Technical Support Specialist, you will be the 200 E-Commerce team. They'll design, develop, and maintain the large-scale English webapp, and will expand their app's reach with a number of new brands, all focusing on the prompt shipment of home accessories. You will be responsible in handling these new products to the webpage with the right specifications, clear product descriptions and imagery, and search filters. You are also our go-to person for technical hiccups.

As soon as the webshop goes live you will be co-responsible for the day-to-day technical operations, keeping it up-to-date alongside the other webshops of Mondeno. You add products, refresh or improve the content filtering, and you keep an eye on the usability and SEO descriptions of the products. With your critical and on-trend overview, you always see possibilities for improvement, and you are proactive in identifying trends and making data-driven recommendations. You will be an important link between

As soon as the webshop goes live you will be co-responsible for the day-to-day technical operations, keeping it up to date alongside the other webshops of Modeno. You add products, refresh or improve the content filtering, and you keep an eye on the findability and SEO descriptions of the products. With your critical and on-trend overview, you always see possibilities for improvement, and you are proactive in identifying trends and making data-driven recommendations. You will be an important link between

different departments such as category management, marketing, and customer service. Alongside your colleagues you will elevate the webshop to a higher level, and streamline processes so that the customers get the ultimate user experience!

Functie-eisen

You are a fan of Apple products and accessories, and you would like to collaborate on building the new webshop together, finding the right content and imagery.

Furthermore, you are:

Available for 32-40 hours a week. HBO-level educated or experienced, and have some relevant working experience. Proven experience managing Shopify stores. Experienced in CMS systems and relevant tools such as Google Analytics. A structured worker, and you can easily switch between different systems. Fluently proficient in the English language.

This position requires that you are based in the Netherlands.

Arbeidsvoorwaarden

You will be joining a social and informal team. Gross salary between € 2600 - € 3200 per month (depending on your knowledge and experience) based on a fulltime workweek. Reimbursement of travel costs. Collective pension scheme. Discount on the company's products. Course budget for personal training.
