Functieomschrijving

You will be responsible for ensuring that the project will be completed within budget. The engineer will work closely with the project team to ensure that costs are accurately estimated, tracked and reported.

Your main tasks include:

- Developing and maintaining cost estimates for the project.
- Tracking project costs and ensuring that they remain within budget.
- Identifying and analyzing cost variances and developing strategies to address them.
- Preparing regular reports on project costs and variances for the project team and senior management.
- Collaborating with the project team to identify opportunities to reduce costs and improve efficiency.
- Ensuring that all project costs are accurately recorded and reported.
