Selling a Tab S9. I bought this tablet to try to do some digital art, however something came up, so I was never able to use this tablet and it just lays unused. The box seal was broken, but the tablet is still in brand new condition, and still has factory protection stripes on the sides, as shown in photos.

Comes with 2 screen protectors that need to be applied.

If you'd like to pay cash, I can come to any town in netherlands on any day, but only if we meet outside, near a geldmaat, NOT inside a house. Please don't send nonsense.
