- Ser2net - Serial to network proxy
SD-Card 4Gb

Voeding:

3A -5V + kabel met micro USB connector

The Raspberry Pi Zero can run several operating systems, including¹²³:

- Raspbian Jessie: This is the best OS for the Pi Zero and is available from the Raspberry Pi Downloads page. Two versions are available, the Full desktop image and the Minimal image.
- Raspbian Buster: Three variants are available, including Lite, Buster with desktop, and Buster with desktop and recommended software.
- New Out of the Box Software (NOOBS): This provides an easy OS installer containing the Raspbian Linux distribution (distro). Also, included with NOOBS are alternative operating systems which are downloaded from the web and installed onto the Pi Zero W. You can select another version of NOOBS called NOOBS.
