Online price: 190\$
 My price: 120\$

Tent used for only 1 batch up for sale.

No tears or damages, all poles to assemble available!

Discounted sale because I am buying bigger tent and grow set.

Please note, first picture is only one I could find online but it is identical model and everything you see. Doors on mine are better because they have plastic windows and can open from the middle like a real closet, so you can open one or both doors. It is the same everything but mine didn't come with that metal net, I didn't want because it is not flexible and convenient for training. Better use thin plastic one in combination with green adjustable wire.
