 PRIJS IS PER STUK!!

Exquisite Craftsmanship

- Chrome, black leather or rubber trim, that reminds of old luxury cars, outlines the helmet
- Bordeaux red calfskin nappa leather & anti-bacteria lambskin interior
- Micro pocket in the leather loop at the back of the helmet holds useful information in an emergency
- Every helmet comes in a beautiful red box
- Immaculate attention to every detail

STATE-OF-THE-ART TECHNOLOGY & SAFETY

- The outer shell is composed of reinforced carbon fiber (a heritage from the aviation and space industries, that provides a maximum of stability at lowest possible weight) and fiberglass layers
- Double density inner shell that optimizes safety and shock absorbency with built-in ventilation ducts
- Ultra light weight of between 870 g – 1070 g (depending on model and size)
- For security reasons, all fixing elements are made of titanium and aluminium. Of course, this further

implies considerable weight reduction.

COMFORT

Wearing fastening guarantees positive and comfortable adjustment
 The properties of the padding create a soothing noise level and character. There is plenty of room for the ears by a special notch

Air channels in the wall of the helmet take out the heated air

Wearing our helmets an incomparable experience thanks to the nappa leather with anti-bacteria lambskin interior.

IN THE PACKAGE
