

## Peugeot 206 1.4 16V XS apk tot 01-2025 airco NAP (1.000, EUR)

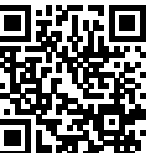

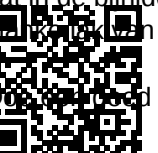

Locatie **Gelderland, Apeldoorn**  
<https://www.advertentiax.nl/x-1889301-z>

Hierbij biedt ik een peugeot 206 aan.  
 Heeft wat gebruikers sporen, maar dat hoort bij een auto van deze leeftijd en kilometerstand.  
 Wij hebben de auto als tijdelijke auto gebruikt, en mag nu weg omdat de auto overbodig is voor ons. Kan nog jaren met plezier mee gereden worden. tevens is de auto ook behoorlijk zuinig.  
 Peugeot 206 1.4 16V XS  
 APK: Tot 10-01-2025  
 kilometerstand: 198119 NAP  
 Recent distributieriem vervangen.

Radio/mp3/bluetooth speler ( Originele radio is aanwezig )  
 Airco ( moet bijgevuld worden, is NIET lek. kosten ongeveer 30/50 euro)  
 Elektrische ramen  
 centrale vergrendeling  
 Buitenspiegels elektrisch verstelbaar  
 Bumpers en spiegels in carrosserie kleur  
 Getint/warmtewerend glas  
 Mistlampen

minpuntjes:  
 kleine kras aan de bestuurders zijde (zie foto)

|                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |
