Suitable for A2 driving license.

Do you want a fast but reliable motorcycle?

Tired of the city crowd and waiting in line with diesel vehicles?

Or do you just want to disappear for the weekend and reset your batteries after a tiring week at work?

For all that and more, here's your new best friend.

BMW G650 GS

It comes from the BMW factory where motorbikes were invented... It looks recognizable even from a distance (sounds like a tiger when it growls from its guts — a real v8 sound).

For all those who know how to appreciate real quality...

Every motorcyclist's dream for a reason (no matter what they ride now).

I traveled across Europe on it. He carried me 15,000 kilometers comfortably and without the slightest

technical problem.

So that everything is 100% safe, full service done before garaged last winter...

The motorbike has heaters on the handles, ABS, crash bars, wind protection, and slip resistant tires... Made for all seasons and ages — when and how you drive depends on you.. And he will adapt to you... Not to mention that he has a service book where every screw that has been replaced is written.. 100%

transparency!

And it looks like a police motorbike... Sometimes the police would greet me on the road and other vehicles pull aside so that I could pass...

God forbid you to turn on all the LED auxiliary lights...

It shines brighter than New Year's lights...

It brakes smoothly and behaves well even in off-road conditions because it is tall and agile... Freedom calls... (And it also has a suitcase, so you can pack your luggage.)

Now I hear you, so why are you selling it then?

I want to buy a monster R1200GS...

It's not easy to give something that I'm 100% sure of...

But aside from my monologue...

If you want to see and hear the motorbike, call me. Any check is also possible.

Great for beginners but also for experienced drivers who know what it's worth...

Call if you have any questions.

Every realistic swap possible - happy to hear your.
