Surf and more is een surfwinkel in IJmuiden gespecialiseerd in wing, golfsurf, kite, sup, accessoires and MORE!

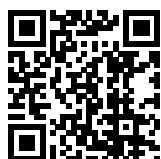

The Dimension is a sweet all round board that'll not only suit you well while slicing through water, but will also not let you down when performing freestyle tricks. This CNC shaped wood core is equipped with an "Active Backbone", similar to a stringer that runs through the whole board. Together with the 3D shape alongside the rail which reduces the boards torsion, this twintip will put a big smile on your face due to it's well-known control and comfort.
