Online nog te koop voor 90euro!

voor als je jouw iPhone wil aansluiten via een audio jack in een auto zonder Apple Car Play.

WiFi Audio | Airplay + DLNA for Car's stereo

Once you have experienced WiFi audio, you will love this amazing technology. Better and more efficient than Bluetooth audio streaming. Simple and one time installation enables you to play music from any mobile device.

Why is LINKA the best choice, compared to Bluetooth audio streaming?

Truly High Resolution Wireless Audio - Most of Bluetooth devices use A2DP (compression audio) which not really high resolution audio. With LINKA you will truly enjoy pure and uncompressed audio via WiFi. No Message alarm - Due to usage of WiFi technology, no more message alarm will come out from your Speakers again.

If you use a Bluetooth streaming device, the music will be interrupted by social media messages continuously. JAM Music - LINKA allows multiple devices to get connected. Every mobile device can play it's favorite music over WiFi at anytime. Bluetooth requires pairing & un-pairing between.
