>> Quality vintage and classic motorcycles in stock, please check the website for current stock <<

A lovely older restoration of the trusted WL introduced in 1937. The WLC was the civilian model and shared the same 750 SV V-Twin engine with the WLA that served many a serviceman during the WW2.

The WLC has been in a collection of motorcycles and as such has not seen much use since restoration. It has just been recommissioned and now needs a new owner and proper use on the road.

The WLC starts first kick and idles along steadily. The engine was completely rebuilt as part of the restoration and sounds very strong.

Paint and chrome in fabulous and very presentable condition. The bike looks beautiful in its black and red paint scheme.

There is a sturdy rack made from stainless steel fitted. It holds the pannier leather bags and the rear passenger seat. It will come off in a matter of minutes and is using existing bolts only, so it leaves an undrilled rear fender.

Registered for the road with current EU registration documents.

Please get in touch for more info, photos and a video of the bike running.
