SPECIFICATIES

NORTH NAVIGATOR CONTROL SYSTEM

Switch effortlessly between disciplines with the Toolless Interloop, our no-tools required modular harness loop replacement system. The Navigator Control System connects you intuitively to your kite, using industry-leading SK99 Dyneema lines from Liros for precise performance. The 2022 Connect Quick Release and leash now complies with ISO Standard 21853:2020. Faster, safer release and intuitive single-action reload in all conditions. Available in three sizes, the refined ergonomic design offers durability, comfort and tactile control. Knowing your kite's position just became second nature.
