I am selling my 2016 Volvo V60 2.0 D3 R-Design, a reliable and stylish vehicle perfect for both city driving and long-distance journeys. The car has been recently maintained, with a recent major service including an oil change, new filters, a detailed inspection, steering alignment, etc., ensuring everything is in top working condition. Below are some key features and recent updates:
Engine and Performance: 150 PK power output with a manual transmission, providing a smooth and responsive driving experience. Recent Maintenance: This includes new tires (at 120,000 km), full service according to the manufacturer's schedule, and detailed maintenance records. The clutch system was recently repaired, and a major service was done at 130,000 km. Exterior and Interior: The car features a striking blue exterior and a well-kept interior with sports seats and LED daytime running lights. Minor cosmetic notes were shared in the pictures. Wheels and Tires: It comes with light alloy 18-inch wheels and all-season tires, which were recently checked and are in great condition. Documentation: Complete with all necessary documentation, including a partially complete service book and two keys. APK: Valid until December 2024.
This car has been a joy to own and drive, offering comfort and reliability. I am selling it because I don't drive long distances, so I will upgrade to a newer hybrid model. The car costs €12,500, but I am open to reasonable offers. Feel free to contact me for a viewing or test.
