We are selling our beloved Mini Copper since we are upgrading. The Mini has
 Cruise ControlAutomatic transmissionLeather steering wheelTires upgraded last yearAfter market parking
 sensor

We are the second owner of the car. We bought it from Ekris with 2 years of Mini Next guarantee.

There is a small hole in the front plastics when my wife ran into the trekhaak of a parked vehicle which
 should cost €250 to fix (I can have it fixed before the sale if you wish).

The Mini is currently at 150,000.
