Honda CB550
 1976

For sale is my cafe racer. I have owned this since 2020 after a full restoration.

Reason for sale is that I have another bike which I use more. This just now sits for very good weather. It's a shame and someone else should enjoy by riding or having in the garage to polish.

As you can see from the pictures the bike is nice head turner, mechanically it is very sound with no issues. The bike is a "hard tail" meaning no rear suspension to keep a low profile. Bike has installed a M unit and lithium ion battery.

Bike was designed on the "Amber Caferacer"

Please contact for any specific questions or to arrange a viewing. Can also send some additional pictures and.
