

## Harken blok 396 (52,50 EUR)

Locatie **Gelderland, Lochem**  
<https://www.advertentieX.nl/x-1931817-z>

Harken blok 396 scharnier met carbo cam cleat

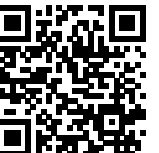

De nieuwe Harken draaibare klem voor giek of mastmontage is 25% lichter dan het oude model.

Montagegaten komen overeen met klassieke model (HK 291). Op open zeilboten te gebruiken voor vallen en schoten. Op grotere zeilboten en zeiljachten te gebruiken voor trimlijnen zoals onderlijkstrekker, cunningham, topping lift, foreguy en andere trimlijnen.

Harken blok met lage draai weerstand en laag in gewicht voor lijnen onder hoge en lage belasting.

Helaas kunnen wij door omstandigheden niet meer zeilen en moesten onze boot verkopen.

Kijk ook bij mijn andere.

|                                                                                                                                                                                                                       |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                         |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |
