Selling this 1993 Suzuki VX 800

I bought this bike in July 2023 as a project to fix and restore but unfortunately I have way too many projects to work on so this one has to go.

The bike turns over but won't start. There are no keys and the ignition switch needs to be replaced.

Registration and papers are present.

It has done 78000kms. Again not the prettiest machine but could be made nice again or used for.
