

# GLOEDNIEUWE Ubiquiti UniFi Switch 8 - 60W PoE 8 (75 EUR)

Locatie **Noord-Brabant, Best**  
<https://www.advertentiax.nl/x-1944868-z>

GLOEDNIEUWE Ubiquiti UniFi Switch 8 - 60W PoE 8!

Nog helemaal ongebruikt dus incl. originele verpakking.

Nieuwwaarde €129,-. Mag weg voor slechts €75,-!  
 Bieden mag maar graag alleen serieuze biedingen.

Bij voorkeur ophalen. Verzending na betaling is ook geen probleem.

Wees er snel bij ivm veel interesse, ook buiten Marktplaats.

## Productomschrijving

De UniFi Switch 8 60W is een Gbit PoE desktop switch van Ubiquiti Networks met een maximale PoE output van 60W. De UniFi Switch 8 60W is een managed switch met 8 Gbit poorten met een totale doorvoer van 16 Gbps.

Het grote voordeel van deze switch is dat deze vier poorten ondersteunt met actieve PoE 802.3af (max. 15,4W/poort). De switch beschikt over automatische poort detectie voor een eenvoudige setup.

|                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |
