BMW X3 with mileage 264,000 for sale. I bought the car with mileage 160,000. When the car had 180,000, the following was replaced:

oil in the gearbox

oil in xdrive

new turbo

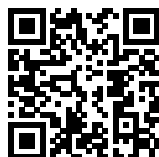

timing chain (I have photos of the replacement and invoices - total cost +- 2500 €)

The engine oil is changed regularly every 10,000 km. the car is damaged in the rear (you can see it in the photos or I invite you to see the car). The front tires were replaced last month and the rear tires in December.
