Chrysler New Yorker 1951.  
 Auto is geheel origineel op de nieuw geplaatste Optima accu na.

5,3 liter flathead lijn 8 semi automaat.

Nederlands kenteken. De Chrysler komt rechtstreeks uit de VS en is afgelopen januari door de RDW van nederlands kenteken voorzien.  
 Stuurkogel hoesjes en achterste rem cilinders zijn vervangen.

Auto is nergens rot of doorgeroest. Onderkant auto hard...deuren, dorpels etc allemaal prima in orde.  
 Cosmetisch is er zeker wel wat te zien.....lak is hier en daar dun, bekleding is verkleurt en hemeltje en deurgrepen hebben scheuren .  
 Chroom is in prima staat...beetje pitjes wel hier en daar .  
 Banden profiel is prima...alleen zijn het geen echte white walls...deze zijn geschilders en de verf laat hier en daar los...maar dat is bij te werken.

Auto heeft 32.454 mile gelopen en die zouden wel eens origineel kunnen zijn. Volgens de vorige eigenaar wel maar ik kan dat helaas niet bewijzen.

---

by the RDW last January.  
Steering ball covers and rear brake cylinders have been replaced.

The car has no rust whatsoever. The bottom of the car is hard...doors, sills, etc. are all in good shape. Cosmetically there is certainly something to see... paint is thin here and there, upholstery is discolored and the headliner and door handles have cracks and holes in the upholstery.

Chrome is in good condition.

Tire are fine...but they are not really white walls...these are painted and paint is coming off here and there...but that can be touched up.

The car has run 32,454 miles and it could well be original. According to the previous owner, yes, but unfortunately I cannot prove that.

More photos and video.
