I am offering a Chrysler 300C vehicle. The car is in good technical condition and has normal signs of use. It is used every day and service and parts replacement are carried out on an ongoing basis. I have invoices for all repairs. The most important things that have been repaired include the complete timing belt, power steering pump, air conditioning compressor, discs and brake pads. The vehicle is maintained in such a way that I am not afraid of any long journey. The car sits on original 18-inch rims with summer tires. I am adding two more sets of rims, one is a black five-spoke 22-inch Bose rim with summer tires and the other is 18-inch wheels with new Toyo Proxes winter.
