

## Jobe Bungee Extensie - Elastisch touw Waterski en Funtube (12 EUR)

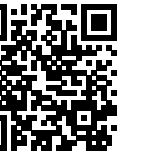

Locatie **Flevoland, Biddinghuizen**  
<https://www.advertentiax.nl/x-1959952-z>

Jobe Bungee Extensie

Nooit gebruikt!

Om ervoor te zorgen dat het funtube touw langer mee gaat, is er de Jobe Bungee Extensie ontworpen. Dit elastische touw moet namelijk tussen de funtube en de boot worden bevestigd. Zo vangt het de kracht van het slepen op waardoor zowel de boot als de funtube minder klappen krijgen wanneer de lijn spanning verliest. Dit komt onder andere vaak voor bij golven. Zo zorgt deze Jobe Bungee Extensie er dus voor dat zowel de boot als de funtube geniet van een langere levensduur. Daarnaast geeft de verlenging een totaal nieuwe dimensie aan een tube rit, doordat de extensie elastisch is. Een echte aanrader.

|                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |
