BMW 3.0 CSL Assembly from AT Power

Six 42mm shaftless throttle bodies are matched to the CSL manifold. Long inlet length is achieved with 100mm extesions and 60mm ram pipes. AT Power offers a range of inlet options and can help you specify and develop the optimal geometry to suit your installation

This ITB system will fit the \"Big 6\" CSL engines from E9 Coupes.

The AT Power Throttle Body incorporates a patented design matching the outright performance of a roller barrel Throttle Body while independent tests have shown >7% more airflow than a conventional butterfly Throttle Body. Mid range performance is significantly increased due the velocity of the same volume of air passing through a smaller orifice. (Click on image for details of Throttle Body Power and Torque curves)

All AT Power Throttle Bodies are made from highly attractive billet machined aluminium housings. The Throttle Body assembly includes Billet Fuel Rail, Complete Stainless Steel Linkage fully assembled to the throttles as standard, Universal TPS output shaft and a range of TPS adaptor plates. They are shipped fully assembled and ready to fit straight to the engine. The Throttle Body is factory balanced and calibrated to a set idle condition.

Note: Throttle Position Sensor Kit comprises Sensor, Adaptor Plate, and Harness Connector. Manifold is
