

Volkswagen ABF9A Throttle Bodies Direct to Head (1 EUR)

Locatie **Drenthe, Emmen**
<https://www.advertentiex.nl/x-196699-z>

This Volkswagen ABF ITB kit comprises of four 45mm shaftless billet throttles and bill CNC port matched adaptors to the cylinder head, no additional manifold is required. With the throttle blade very close to the inlet valve the engine response is lightening quick. The 45mm throttle size is equivalent to regular 48mm throttles offering maximum airflow.

This DTH ITB system will fit ABF and 9A powered cars such as VW Golf Mk3, VW Scirocco, and ABF or 9A conversions and Kit Cars. Pictures shown with optional higher level injectors, 70mm long tapered extensions and 50mm diameter, 90mm long ram pipes with a total length of 250mm.

The AT Power Throttle Body incorporates a patented design matching the outright performance of a roller barrel Throttle Body while independent tests have shown >7% more airflow than a conventional butterfly Throttle Body. Mid range performance is significantly increased due the velocity of the same volume of air passing through a smaller orifice. (Click on image for details of Throttle Body Power and Torque curves)

All AT Power Throttle Bodies are made from highly attractive billet machined aluminium housings. The Throttle Body assembly includes Billet Fuel Rail, Complete Stainless Steel Linkage fully assembled to the throttles as standard, Universal TPS output shaft and a range of TPS adaptor plates. They are shipped fully assembled and ready to fit straight to the engine. The Throttle Body is factory balanced and calibrated to a set idle condition.

Note: Throttle Position Sensor Kit comprises Sensor, Adaptor Plate, and Harness.
