

ultrawide LG monitor - 38WN95C - good as new (620 EUR)

Locatie Zuid-Holland, The Hague
<https://www.advertentiax.nl/x-1970354-z>

The LG 38WN95CP is a 38-inch Ultrawide monitor. Perfect condition, in original box and packaging.

Description:
 The screen is wider and higher than a standard monitor, giving you a lot of screen space. This is useful when editing text documents or photos, but it is also nice while gaming or watching Netflix.

The curved screen wraps around your field of view. The 21:9 screen has a high WQHD+ resolution, which allows you to experience razor-sharp photos, films and games. The combination of the Nano IPS panel and 98% coverage of the DCI-P3 profile ensures very realistic color reproduction from every viewing angle.

DisplayHDR 600 ensures high brightness and wide contrast. Do you like gaming? Then 1ms response time, 144Hz refresh rate and G-Sync compatibility ensure a smooth gaming experience. Connect your MacBook or Windows laptop via the Thunderbolt 3 port and charge the laptop.
