Premium gaming laptop with a powerful graphics card RTX4070
CPU i7-13700.
17,3 inch
In perfect condition.
A very colorful 2440 x 1440 QHD 165 HZ monitor.
Metal housing.
Very high-quality speakers BANG & OLUFSEN
You will enjoy any games.
The laptop is under warranty

You can come to me and check how it works and test the games.

This is a unique laptop, it is many times better than its competitors, because in addition to super powerful performance, it also has expensive body materials and a nice mechanical keyboard.

This laptop is 2 in 1:

1. It is super powerful gaming performance. You can play all games in ultra settings with incredibly smooth and detailed images with a qhd resolution of 2560x1440 and 165 hz.
2. you can watch a very high quality movie on it, like in a cinema, thanks to the screen and the expensive BANG & OLUFSEN speaker system
