

# HP DL360e Gen 8 (150 EUR)

Locatie **Gelderland, Apeldoorn**  
<https://www.advertentiax.nl/x-1980349-z>

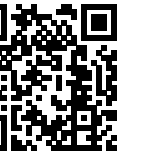

HP DL360e Gen 8 server. Hieronder staan de specificaties van deze server.

Specificaties:  
 Processor: Intel Xeon CPU E5-2407 (4 cores) 2,2GHz  
 Geheugen: 24GB ECC geheugen  
 HDD: 2x 600GB, 10K SAS schijf  
 Rail: Komt inclusief railkit om hem in een rack te kunnen hangen  
 Voeding: Enkele voeding

We hebben ook nog enkele 17,19,21 Inch 4:3 schermen staan of 20,21,24" 16:9 schermen deze kunnen erbij worden geleverd. Vraag even naar actuele beschikbaarheid.

Hij kan worden verzonden maar gezien de gevoeligheid zou ik het niet aanraden.

RTV Apeldoorn is een stichting. Hierdoor kan het langer duren voordat één van onze vrijwilligers reageert. Tevens kan het verzenden of ophalen meestal niet direct gezien dat we niet dagelijks aanwezig

|                                                                                                                                                                                                                |                                                                                                                                                                                                                 |                                                                                                                                                                                                                 |                                                                                                                                                                                                                 |                                                                                                                                                                                                                  |                                                                                                                                                                                                                   |                                                                                                                                                                                                                   |                                                                                                                                                                                                                   |                                                                                                                                                                                                                   |                                                                                                                                                                                                                   |
