Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

- Responsible for the approval process of your scope, implementing requirements and specifications imposed by Class, Statutory & Flag Regulations, and the customer.
- Developing the required deliverables, such as statutory plans according to applicable rules and regulations, arrangements, technical specifications, system descriptions and verification and validation documents.
- Engineering activities in 2D/3D.
- Participate in the Product & Proposal phase and verify technical data of vendors and subcontractors.
- Analyse (technically) received offers under supervision of the Team Lead.
- Technical support on commissioning activities and develop and describe yard standards.

Functie-eisen

- Bachelor degree.
- Minimum three-year experience in engineering plans, arrangements and technical systems, especially gained in the installation of classed machinery regulations and experience with their practical interpretation and implementation.
- Experience with class, flag and client approval processes, including discussions with plan approval and local surveyors and/or client representatives.
- Quality and budget awareness and experience in cooperating with vendors and subcontractors.
- 2D / 3D experience with software like Catia / Cadmatic etc.
- English language written and verbal, Dutch language is a plus!
- EU nationality.
