I've lived in the van full-time for 6 months, travelling in Europe. It's very comfortable to drive and park with a backup camera.A huge living space and high roof feel like home, and don't feel cramped. As long as you aren't over 190 cm, you can stand straight up inside. It provides enough power to charge my MacBook, phone, or camera gear. Not many vans have an oven, and eating freshly baked pizza is a real treat! I'm leaving kitchen stuff and some tools in the van. It has everything you need to start travelling in Europe!
