HDMI, DP, USB 3.0, 1 ms, 144 Hz, height adjustable, ZeroFrame, AMD FreeSync.

I have used it for two years; it looks as good as new. I recently got a new OLED 48-inch monitor, so I no longer need this one. It comes with the box and the purchasing invoice and a UK power cable and a European adapter. I've always used one like this. The screen can be tilted 90.'

Compact and easy to the eye
 Super bright
 Good resolution and excellent framerate
 One of the best screens ever created
 It is easy to transport as the box still has the styrofoam, and the screen can be easily placed into.
