

# Daihatsu Cuore Osaka zwart NIEUWE APK Juli 2025 amp Bluetooth (1.050, EUR)

Locatie **Gelderland, Duiven**  
<https://www.advertentiax.nl/x-2000547-z>

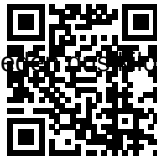

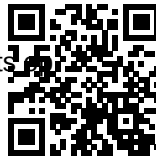

APK tm 18 juli 2025

Hierbij is mijn Daihatsu Cuore te koop. Ik verkoop deze omdat stuurbevestiging mist. Wegens medische omstandigheden kan ik hier niet meer mee rijden en ben ik opzoek naar een auto met stuurbevestiging.

- Wat algemene informatie over de auto;
- Hoge instap
  - Vrij ruime kofferbak, ideaal voor boodschappen
  - Zuinige auto
  - Bluetooth radio
  - Speaker om te bellen
  - 3 deurs

Altijd goed onderhouden. Zelf in bezit van deze auto sinds augustus 2023 als startersauto, erg veel plezier van gehad. Erg zuinige auto en lage kosten per maand.

- Vervangen in 2023;
- Vernieuwde uitlaat en middendemper
  - Vernieuwde achterbanden

|                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                           |
