For sale: a used phone in good condition with minor cosmetic flaws. The device has some scratches, as shown in the photos, and a few stuck pixels on the middle-right of the screen, noticeable mainly on bright or white backgrounds. These issues never bothered me, so I haven't checked if they can be fixed.

I'm selling this phone because I upgraded to the Galaxy S24 Ultra. The phone can be viewed and tested at my home, or I can meet in the Tilburg area for serious buyers.

Included with the phone is a case that covers most of the scratches and enhances the phone's appearance.

Contact me to schedule a viewing or for more.
