Beautiful and thanks to some decent upgrades) fantastic driving 1992 Alfa Romeo Spider 2.0 S4.
 109000 km's only.

Perfect colourcombination red / black interior (so not the always dirty looking sandcolour).

Needs nothing everything is working, perfect softtop, bodywork, paint etc.

Great stereo.

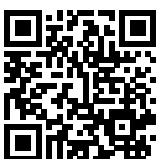

Squadra Tuning ecu for better driveability and better torque.

In the past we upgraded the car with Alfaholics 7x15 GTA Veloce wheels with new tires, Alfaholics s/s wheelnuts, Alfaholics Fast road suspensionkit incl. S4 upgrade so with bigger front anti rollbar, Koni yellow dampers and a Nardi Classico steeringwheel.

(original steeringwheel comes with the car).

Apart from the work we have done, the car also has a completely rebuild differential, new engine mounts and loads of other work. (total of 9500 euro's incl. invoices)

24950
