Time to let go of a beloved car as we leave Netherlands

Owned by me for 7 years and drove ~10K KM a year. NEVER had a mechanical issue, I haven't had an accident.

Serviced well by a real master near our house which would be happy to give a testimony.

Recently had a major 200,000KM service + tires, breaks, suspension serviced (invoice available). With its low mileage it is a pleasure to drive, powerful and has surely many years to serve a new owner.

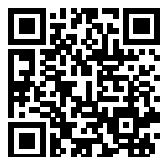

There are scratches, especially the rear bumper.

Has a toe, and APK was done.
