

## Sloep (redding)vlet Mulder amp Rijke (3.750 EUR)

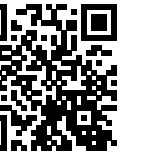

Locatie **Friesland, Hindeloopen**  
<https://www.advertentiax.nl/x-2015224-z>

Voor de liefhebber bieden wij hierbij aan een nette polyester toer- / visboot van het type vlet, inclusief vierslag 6 pk yamaha buitenboordmotor.

Vlet is van het merk Mulder & Rijke. Afmetingen bij benadering 4.30 x 1.70 m. Genoemde motor twee jaar geleden nieuw aangeschaft en sindsdien nauwelijks gebruikt.

Relatief kort geleden zijn nieuwe vlonders gemaakt. Roeiriemen.

|                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                        |
