Inleiding

For one of our customers we are in search for a Site Civil Engineer

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

- To support the Project Engineering Manager, in the performance of his/her duties, deputising as required.
- Work closely with the Execute contractor to ensure that all Civil, Structural and Architectural (CSA) Engineering issues are properly resolved in a timely manner, that design changes are managed correctly, and that the facilities comply with all project and statutory requirements and Stakeholder expectations.
- Monitor site CSA construction work performed by the Execute Contractors and other third party designers/vendors/subcontractors, providing oversight and guidance, ensuring that all work satisfies project specifications and standards and meets or ideally is better than the project schedule and cost targets.

Our aim is to improve communication between the site and home office engineer by education and experience, with on-site events and on-line training.

Excellent team player.
 Strong interpersonal, communication and influencing skills.

- Strong planning and organizing ability.
- Highly motivated, achievement oriented.
- Ability to interface effectively with people of all levels, both internal and third parties, and with wide ranging cultural backgrounds.
