The VXP-P2-24-J-D from Pelco is a VideoXpert Professional video management system (VMS) in a single box, designed for easy setup and robust monitoring in small or moderately sized applications. Designed for Windows platforms, VxPro is easy to install, quick to setup, and provides an intuitive interface that helps operators use video captured by the system. VxPro is available in tailor-made hardware solutions or in software distributions to support your existing VMS infrastructure, VxPro provides options to support the throughput you need, and different amounts of storage in RAID 6, RAID 5, or JBOD arrangements to fit your needs for retention, redundancy, and fault tolerance. Software licenses are available in terms of 1 year or 3 years, and you can request for the third party support. The system supports multiple users, and you can easily adapt the system to your network.
