

IT Data Support Technician

Locatie **Zeeland, Terneuzen**
<https://www.advertentiax.nl/x-2021724-z>

Inleiding

For a client in Zeeland, we are looking for a IT Data Support Technician

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

This support role focuses both on individual assistance as well as preparation for transfer to different tools and strategies that provide long term benefits for the team.

This role delivers a valuable contribution to our main team goal which is the reliability and safety of our process installations.

Detailed description of the tasks involved in this role:

- Assist in several small changes to existing in-house inspection tools with focus on documentation and efficiency needs.
- Assist in the transfer to Bluebeam for development of piping inspection scopes by the inspectors of the

FAI team. This software will help us to increase efficiency and productivity. This role involves the transfer of data from in-house inspection market to the global Data Management Group and general inspection dashboard on the asset level that is communicated monthly at our clients site.

Help/assist inspectors with IT issues in order to increase efficiency in inspection documentation

Functie-eisen

- MBO4 level with preference for IT Systems.
- Fluent in Dutch and proficient in English.
