Burly Brand Crashbar voor touring modellen

BLACK BRAWLER KIT TOURING 2009-UP

Gear up for a new breed of bagger stunting, where rebellion meets style and limits are shattered. Introducing our Brawler Kit, purpose-built for Harley-Davidson™ Touring® models.

Our bagger crash bar kit is the ultimate upgrade, equipping you with comprehensive protection for the front . No compromises, no holding back. With our innovative design featuring replaceable Delrin sliders, your ride not only looks sick but also remains shielded when the bike is introduced to the pavement.

Take your stunting to the edge, knowing that our cutting-edge Brawler Kits have your back. We understand the hunger for style that stands out from the pack. That's why our crash bars blend a rebellious aesthetic with bulletproof functionality. Designed with precision knurling, our kits double as a highway bar and provide a secure grip to keep your feet in place, allowing you to comfortably rest your legs during extended rides

Street glide, road glide, road king, Harley, valbeugel, voetsteun, highway
